

TIER TRAP FILTER

HSF 374

Article number 695004729

PRODUCT CATEGORY: 20 CATV

STATUS: AVAILABLE

Product

TIER TRAP FILTER
HSF 374

Tier trap filter to block a small band to enable one or two channels with own content (channel S30 & S31). The HSF 374 blocks the frequency range of 354 up to 412 MHz to make frequencies 374-390 MHz free for other use. The blocked frequency range is in the DOCSIS band of Ziggo (former UPC regions). This means the filter blocks a part of the internettraffic of Ziggo.

We recommend to use two HSF 374 in a row to ensure the best result. See the wiring diagram for the correct installation.

Also available in a version with other usable channels (channel S16 & S17) with a blocked frequency range in the DOCSIS band of the former Ziggo regions (HSF 265; article number 695004728).

TIER TRAP FILTER

Specifications

Electrical specification

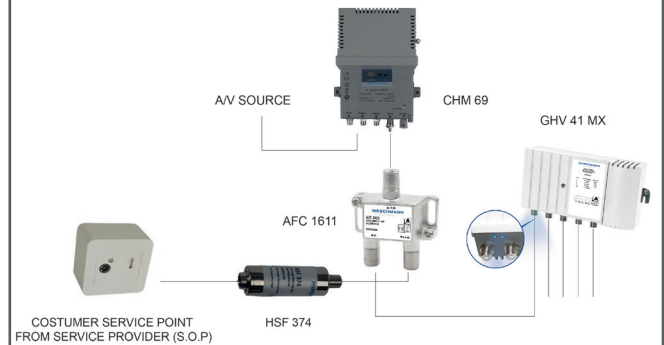

Frequency range	5 - 862 MHz
Impedance	75 Ohm
First pass band	5 - 354 MHz
Insertion loss	2.0 dB
Return loss	> 10 dB
Second pass band	412 - 862 MHz
Insertion loss	2.0 dB
Return loss	> 8 dB
Stop band	374 - 390 MHz
Rejection	> 48 dB

Screening effectiveness	Class A
Protection	IPx4

Mechanical specification

Housing material	Copper tube
Connector	F male and F female
